

An innovative approach creates new arenas for sport

Sweating the asset: Making sports facilities work better

Development Consultant Jakob Færch
Danish Foundation for Culture and Sports Facilities

Future calls for new solutions

- Innovative sports facility development
 - Case: Danish National Regatta Course
 - 'The Danish Model'
 - How we do it
- 4 challenges & innovative projects
- Recommendations for innovation

Mission

The mission of the Foundation is to develop, advise and support construction of sports, culture and leisure facilities with a strong focus on architecture and functionality.

Danish National Regatta Course

Events and training

- Training center canoe/kayak/rowing
- Masters Rowing World Champs 2016
- World Cup sprint canoe/kayak 2020
- World Championship sprint canoe/kayak 2021

Modernisation project

- 120 mio. kroner/€16 mio.

TRADITIONELT PROJEKT
UNDER JORDEN
51 mio. kr.

VANDPLUS-PROJEKT
OVER JORDEN
34 mio. kr.

Urbanisation

- People moving to cities
- Pressure on sports facilities
- Lack of space
- Where to build public spaces and recreational sports facilities?

Active Roof Top in Copenhagen

HARD or SOFT?
HUMAN SCALE?
RECREATION AND SPORT?

Protect drinking water AND create arena for outdoor sports

INNOVATION leading to new solutions

- Double / tripple functionality
- Challenges + human scale
= new solutions
- Knowledge+experience+values
- Bring architects together with
end-users and movement
experts
- Good luck!
